

七股 QIGU

There's been no snow
But a mountaintop is white
Even southbound spoonbills
Haven't got time to shake off the frost

TIPS 1

Black-faced Spoonbill

Black-faced Spoonbill is one of the rarest birds on earth. The sandbank and reclaimed land formed by the alluvial land at the mouth of Zengwen River offers a rich estuarine ecosystem with abundant benthos and planktons, which draws a massive number of migratory birds to perch and forage. Black-faced Spoonbill is the migratory bird that draws the most attention in these waters.
